

SonarMD Named to the 2020 CB Insights Digital Health 150 -- List of Most Innovative Digital Health Startups

SonarMD recognized for achievements in virtual care coordination and drug optimization for gut health

NEW YORK, August 13, 2020 -- [CB Insights](#) today named [SonarMD](#) to its second annual [Digital Health 150](#) ranking, which showcases the 150 most promising private digital health companies in the world.

The 2020 Digital Health 150 cohort highlights startups that are reimagining the lines of the traditional healthcare experience across 12 categories, from Virtual Care Delivery and Clinical Trials, to Drug Discovery and Specialty Care. Countries represented this year include Canada, China, Israel, France, the United Kingdom, and the United States, among others.

"This year's Digital Health 150 is our most global ever, covering the best private healthcare companies from 17 countries. Beyond geographic diversity, these companies are innovating across the entire healthcare value chain, spanning technologies that benefit pharma & biotech companies, to payers, hospitals, insurers, and more," said CB Insights CEO Anand Sanwal. "Last year's Digital Health 150 winners saw numerous exits and went on to raise nearly \$5 billion in investor financing after being recognized. We look forward to seeing the success of this year's class of the best in digital health."

"Payers across the country are recognizing there is a huge opportunity to improve lives and reduce costs by engaging gastroenterologists in value-based care arrangements," said Beth Houck, Chief Customer Officer, SonarMD. "We are honored to be recognized for bringing gut health into the digital health space using data, cross collaboration, and deep clinical knowledge."

Through an evidence-based approach, the CB Insights research team selected the Digital Health 150 from hundreds of applications based on several factors including patent activity, investor quality, news sentiment analysis, proprietary Mosaic scores, market potential, partnerships, competitive landscape, team strength, and tech novelty. The [Mosaic Score](#), based on CB Insights' algorithm, measures the overall health and growth potential of private companies to help predict a company's momentum.

Earlier this year, SonarMD [announced](#) a new acquisition, an expanded executive team, and a value-based care partnership with another major health insurer. The company also [presented](#) new data at the world's largest GI meeting, and [experienced](#) rapid adoption at one of the nation's largest integrated GI care networks immediately after COVID-19 hit.

Quick facts on the 2020 Digital Health 150:

- The 2020 Digital Health 150 startups have raised over \$20B in funding across 600+ deals from 900+ unique investors.

- The list includes 12 unicorns (companies that have reached a valuation of \$1B+) focused on a diverse range of digital health solutions, including telehealth, insurance, and robotic surgical systems.
- Many have formed partnerships with key industry players like the American Heart Association, Cigna, and Mount Sinai Health System.

About SonarMD

SonarMD is a virtual care coordination and drug optimization solution for gut health. SonarMD's clinical staff and technology make it easier for patients and specialists to work together to detect and address worsening symptoms sooner and make the right treatment decisions. The company contracts with payers and works directly with sub-specialists in their network to provide value-based care. SonarMD is starting in inflammatory bowel disease where it has proven to reduce hospitalizations, saving health plans more than 15% per member per year. For more information, visit www.SonarMD.com and engage with SonarMD on LinkedIn and Twitter.
